Education

D.Y. Patil College of Engineering, Akurdi, Pune, Maharashtra *June 2022 – June 2026*
Bachelor of Engineering — CGPA: 9.48

Technologies

Languages: Java, C++, Python
Technologies and Frameworks: HTML, Tailwind CSS, JavaScript, Typescript, Redux, ReactJS, NextJS, React Jest, NodeJS, ExpressJS, Firebase, MongoDB, Hugging Face, MySQL, Docker
Deployment and Version Control: Git, Netlify, Vercel
Competitive Programming: HackerRank, LeetCode 375+ (Rating 1756)

Experience

SDE Intern – Frontend (One-Support Nugget) *[June to April]* **Zomato**

- Contributed to the **One-Support UI Components Library**, **Chat SDK** (backbone of the chat system), and **Zomato Lifeline**, used by Customer Delight Associates to interact with real-time agents.
- Developed key functionalities such as **Block/Unblock**, **Shift Reports & CSV Exports**, **Query Management Enhancements**, and various **Ticketing System Improvements** including event payload updates, glitch fixes, and assignment optimizations.
- Introduced new UI components like **WarningModalV2**, added tooltips, refined bulk operations, and currently building the **Call Support Module** with **Firefly** based summary, integrated modals and call logs.

Full Stack Web Developer Intern *[December to April]* **Simplium Technologies**

- Worked on **Bird Earner**, a freelancing platform; built the **Admin Dashboard and Frontend** using **Next.js**, **Tailwind CSS**, **Appwrite**, and **MySQL**, delivering responsive, cross-browser compatible UIs to manage users and activities.
- Worked on **City News Chandigarh**, a dynamic news website built with **Next.js** and **Tailwind CSS**, featuring real-time updates, category-wise filtering, **Selenium**-based web scraping, and collaborated with designers / teams to build ethical and user-centric features.

Projects

HealthSetu — Integrated Healthcare Management System
Tech Stack: ReactJS, Tailwind, DaisyUI, NodeJS, MongoDB, JWT, Python

- Built an **AI-powered healthcare platform** with role-based dashboards (patient, doctor, admin), intelligent **queueing**, and inventory management to optimize hospital operations.
- Integrated appointment booking, real-time **health tracking(Fitbit)**, automated prescriptions, and medication reminders to improve patient care.

(Ivene 1.0) AI-Powered Mock Interview *Copyright Filled*
Tech Stack: Next.js, Google Generative AI, Clerk, React Speech Hook, Drizzle ORM

- Built an **AI Powered Mock Interview Platform** with Next.js and Google Generative AI, using **real-time speech-to-text** and webcam support to improve user performance, and optimized Drizzle ORM + PostgreSQL to handle 10K+ records

Mini Projects and Contributions

- Windows XP Portfolio link,GDSC DYPCOE link, CPMC DYPCOE link, Electricity Management Java link,Rotaract Dypcoe link

Achievements and Certifications

- Smart India Hackathon 2024 Finalist (Runner Up + Top 5 India)
- Global Rank 389 Leetcode Weekly Contest 444
- Best Paper Award at International Conference on Cybertech and Smart Systems 2025
- Winner of the GDSC DYPCOE 2023 Website Building Competition.
- Winner of the Avishkar Competition SPPU (Consecutively 3 Years)
